

Off-Grid Power Workshop – Meet the Practitioners!

New & better placed @ INTERSOLAR EUROPE 2024

In cooperation with:

Supported by:

Federal Ministry
for Economic Cooperation
and Development

The off-grid solar sector continues to make a name for itself as the solution of choice when it comes to high quality rural electrification or reliable backup power or instrument to deliver power quality.

At the Off-Grid Power Workshop 2024 at Intersolar Europe you can learn about the latest lessons learned, technical developments and future applications in this field. With this in mind, the BSW, BMZ, Intersolar Europe and event partners UNIDO Investment and Technology Promotion Office (ITPO) Germany as well as the Afrika-Verein der deutschen Wirtschaft e.V. ("Africa Association of German Business") and Africa Minigrad Developers Association (AMDA) again invite you to the "Off-Grid Power Workshop - Meet the Practitioners 2024".

As the industry and the event have changed continuously over the last few years, this year's edition wants to tweak and hopefully improve the concept.

Why join?

New and more prominent venue at the ICM (Room 14c) at the Intersolar trade fair in Munich

High-level opening with the Intersolar Off-Grid Conference on June 19 on the topic of "Pioneering 100% Renewables: Opportunities and challenges of off-grid systems on islands and in remote areas"

Access to discounted tickets for participants and speakers:

- Attendees benefit from a €40 ticket (regular price of €370) for the [Intersolar Off-Grid Conference](#) (limited places available on request)
- Speakers also benefit from a 50% discount on [The Smarter E conference](#) pass (615€ instead of the regular price of 1230€)
 - + Numerous other benefits for speakers, which you can read about [here](#)

Are you interested in speaking or attending?

Then please contact us via oezlu@bsw-solar.de (cc: dunst@bsw-solar.de)

Structure of the program (updated versions available [here](#) starting June 3):

Wednesday, 19 June 2024 – ICM, Room 14c

Opening Session as part of Intersolar's Off-Grid Conference, 16:00–17:30

Pioneering 100% Renewables:
Opportunities and Challenges of Off-Grid in Island and Remote Environments

Thursday, 20 June 2024 – ICM, Room 14c

Session 1, 10:00–11:15	Session 2, 11:45–13:00	Off-Grid Lunch, 13:00–14:00
Innovations in Off-Grid Solar Hardware Technologies	Advancements in Software for Off-Grid Solar Energy Access	Networking
